To our Stakeholders:

I am pleased to once again confirm that Everspin Technologies, Inc. reaffirms its support of the Ten Principles of the United Nations Global Compact in the areas of Human Rights, labor, Environment, and Anti-Corruption.

In our most recent annual Communication on Progress we have described our actions in our continuous effort to improve and solidify the Global Compact and its principles into our business strategy, culture and operations.

As we continue to put effort into becoming a better corporate world citizen through our embrace of the ten Principles of the UNGC, we also commit to sharing this information with our stakeholders via our primary methods of communication which include our website, in person meetings with our customers, potential customers, technology partners, and our suppliers.

Respectfully,
