REPLACEMENT TYPES:

**NA**

PB DESCRIPTION:

*Everspin will begin transitioning product marking on all parts listed in the previous section (please refer to: PRODUCTS/PART#s AFFECTED) from the current marking format which includes a Freescale Semiconductor logo to a similar mark with an Everspin Technologies logo as part of the transition related to the separation of Freescale's MRAM Unit into a separate company, Everspin Technologies. This marking change is cosmetic only and does not indicate any change to the quality, performance, or capability of these products. Product/Part #'s will remain UNCHANGED.*

*Note: Please be aware that there will be a transition period in which devices may be shipped with either Freescale or Everspin logo marking as of January 8, 2009 until such time as inventory and WIP has fully transitioned to the new Everspin Logo.*
