Senior RTL Developer

Everspin Technologies is searching for exceptional candidates to fill a Senior Member of the Technical Staff position in systems development.

Scope of Responsibility/Expectations

Senior RTL Developer responsible for building development environment and delivering RTL for custom products and evaluation platforms. FPGA and DDR3 experience is a definite plus. Must be experienced enough to work independently as well as a member of a cross functional team. Good communication skills and strong team work is required. Opportunity is in our Austin based design center.

Education and Experience

Masters in Electrical Engineering, or equivalent education and experience, is required. A track record of innovation and leading-edge expertise is expected in the relevant areas.

The Company

Everspin Technologies is the world's first volume MRAM supplier and continues to lead the industry by advancing the technology and expanding its MRAM product portfolio. The open position is at the company headquarters located in Chandler, Arizona (greater Phoenix metropolitan area). It is a salaried position that includes benefits including: medical, dental, vision plan, paid time off, and a 401k retirement plan.
