

## **Senior System Engineer and Architect**

Everspin Technologies is searching for exceptional candidates to fill a Senior Member of the Technical Staff position in systems development.

### **Scope of Responsibility/Expectations**

Senior System Engineer and Architect responsible for delivering specifications for sub-system level products focused on the storage segment. Tasks will range from customer engagement through basic research to system level validation of developed products. Must be experienced enough to work independently as well as a member of a cross functional team. Opportunity is in our Austin based design center though would consider remote in continental US time zone for outstanding candidate.

### **Education and Experience**

Masters in Electrical Engineering, or equivalent education and experience, is required. A track record of innovation and leading-edge expertise is expected in the relevant areas.

### **The Company**

Everspin Technologies is the world's first volume MRAM supplier and continues to lead the industry by advancing the technology and expanding its MRAM product portfolio. The open position is at the company headquarters located in Chandler, Arizona (greater Phoenix metropolitan area). It is a salaried position that includes benefits including: medical, dental, vision plan, paid time off, and a 401k retirement plan.
